Prophesy, a Körber product

Prophesy Dispatch Hours of Service

Empower your dispatchers with full visibility of available hours for each driver in your fleet.

Prophesy Dispatch with hours of service monitoring

- See available hours for each of your drivers
- Get alerts when drivers will not have enough available hours to complete a delivery
- Choose to prevent assignment of a driver to a load if they will not have enough available hours to complete it
- Standard integration to multiple ELD providers
- And much more!

Information displayed to dispatchers includes:

- Estimated driving time required for a load
- Hours of service totals
- Last updated date and time
- Last status update
- Estimated remaining driving time
- Estimated remaining on duty time
- Estimated remaining total on duty time
- Estimated remaining until mandatory break
