Prophesy, a Körber product

Prophesy Dispatch

Prophesy Dispatch is the central solution for managing every facet of your transportation operation.

Versatile, efficient, powerful

Whether you are a TL or LTL for-hire carrier, broker or private fleet, Prophesy has a solution designed for the way you do business. Prophesy Dispatch will streamline and integrate your dispatch and accounting departments and is capable of handling all of your freight brokering needs. You will never have to enter data twice, as all of your critical information flows in real time through every part of your business. the store.

## Seamless accounting integration

If you are using QuickBooks®, Sage 50 (formerly Peachtree®) Accounting, or Microsoft Dynamics GP, all of your critical accounting data from A/R, A/P, and Payroll will flow automatically from Prophesy Dispatch to your accounting system. With our Third-Party Accounting interface you can also integrate to MAS 90® / MAS 200 and other accounting systems.

Modular design

Prophesy solutions are designed with a building-block approach, so you can start by addressing the most critical needs of your business and add more capabilities as you grow. Prophesy Dispatch comes standard with the following modules and services:

- Commercial mileage and routing

- IFTA fuel tax reporting

- Driver management

- Vehicle maintenance

- Reporting
