Prophesy, a Körber product

Prophesy LogPlus, a Körber product

The fastest and most reliable way to ensure that your drivers comply with DOT rules and company regulations.

Prophesy LogPlus, a Körber product is the fastest and most reliable way to ensure that your drivers comply with all DOT rules and company regulations. LogPlus quickly and easily checks for and records all violations, including duty, driver, speeding, cumulative, and other DOT rules and company regulations.
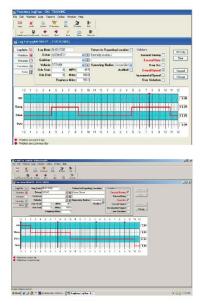

Only LogPlus lets you quickly check reported log miles for accuracy against Prophesy's Mileage & Routing database. LogPlus will even keep track of driver toll and fuel receipts to check for related violations.

LogPlus will...

- Ensure that your drivers are in complete compliance with DOT rules and company regulations.
- Interface with Prophesy Mileage & Routing to check the accuracy of reported mileage and speeding violations.
- Assist you in taking disciplinary action with your drivers, without increasing your driver turnover.
- Maintain a file for each of your drivers, containing their warning and disciplinary letters.
- Eliminate any fear of driver log audits!

LogPlus features

- Allows easy retrieval of information from any log, with the driver log look-up feature
- Generates available hours reports for drivers
- Cross-checks logs with receipts (toll, fuel, etc.)
- Automatically checks and flags speeding violations
- Handles user-defined company rules
- Generates comprehensive reports, including driver notification letters
- Makes finding individual logs quick and easy with a Windows Explorer-style view of drivers and logs
